

16-core A12 self-supporting optical cable

Overview

ADSS fiber cable is a self-supporting, non-metallic optical cable designed for aerial and outdoor installations. Featuring loose tube design, FRP reinforcement, and UV-resistant protection, it's ideal for power utilities, telecom, and long-span networks. No metal, no. atible with any telecommunications-grade optical fiber. This cable incorporates innovative waterblocking materials, elimi-nating the need for traditional flooding compound and p oviding efficient and craft-friendly cable preparation.
