

6-head distribution box

Overview

A 6-way MCB distribution box is used to protect electrical circuits and divide the incoming electricity into different outgoing circuits. This electrical distribution unit features six strategically positioned connection points that enable. The LWHG series distribution box is an industrial electrical box with a modular appearance and a small volume. In addition to being easy to install, it has an excellent structure and high performance. From power and signal distribution to I&C applications and complete room. Hager RCBO 1M 1P B-16A Type A, 30 mA, 10 kA combines MCB and RCD protection to guard against overloads, short circuits and earth leakage. Rated 230-240 V, 50-60 Hz, with 4 kV impulse withstand and IP20. B-curve suits general lighting and socket circuits. MCBs act as preventive measures.
