

Anti-static funnel for cable trays

AI Overview

Anti-static funnels can be used to safely guide cables or components into trays while preventing electrostatic discharge, typically made from conductive or anti-static polypropylene materials. Overview Anti-static funnels are designed to minimize static buildup during the transfer of materials. While most commercially available anti-static funnels are intended for laboratory use, such as polypropylene weighing funnels, their anti-static properties make them suitable for handling cables, wires, or small electronic components into cable trays. These funnels prevent sparks or static discharge that could damage sensitive electronics. Material and Design Polypropylene (PP) Funnels: Disposable or reusable, impact-resistant, and anti-static. They often feature a flat side for stability and precise placement. Conductive or Static-Dissipative Funnels: For higher ESD protection, funnels can be made from conductive plastics similar to those used in Staticide® conductive trays, which comply with ANSI/ESD S20.20 and IEC 61340-5-1 standards. Sizes: Funnels come in various sizes, from small (for microcables or wires) to medium or large (for bulk cable routing), allowing compatibility with different cable tray widths. Practical Use with Cable Trays Position the funnel over the tray opening to guide cables or components. Ensure grounding: If using conductive funnels, connect to a grounded surface to safely dissipate static. Transfer materials slowly to avoid friction-induced static buildup. Stackable trays: Using anti-static or conductive trays in combination with funnels ensures complete ESD protection during handling and storage. Recommendations For lightweight cables or small components, disposable anti-static polypropylene funnels are sufficient. For larger cables or sensitive electronics, consider conductive funnels or trays that meet ESD standards. Always verify that the funnel material is compatible with the cable insulation and does not generate static through friction. By combining anti-static funnels with ESD-compliant cable trays, you can safely route a...

Satern Anti-Static Powder Funnel

Description Satern Anti-Static Powder Funnel SATERN Powder Funnels are caliber specific, machined to precise dimensions which allow the funnel to sit neatly on

Cable tray outlet funnel buy online

An outlet funnel for cable tray connects straight tray runs with outgoing cable routes. The formed part expands or redirects the usable cross-section so that cable bundles can exit the tray in a controlled

ESD Rubber Bands & Tray Straps

Buy ESD Velcro straps & anti static rubberbands online at Correct Products. We stock ESD hook and loop straps, Velcro cinch straps and anti static and

MK Machining Modular Anti-Static Funnel Set

THROW LEVER ACCESSORIES AUDERE PRODUCTS RCBS CHARGEMASTER What products does MK Machining offer? MK Machining offers high-quality throw levers, reloading trays, grips, scope

Amazon : Anti Static Tray

Portable Anti Static ESD Mat Kit for PC Building & Electronics Repair – Static Dissipative Protection with Wrist Strap, Alligator Clip & Grounding Plug for DIY, Students & Home PC Upgrades (Standard)

7 Best Anti-Static Fuel Funnels For Overland Refueling

Equip your rig for remote travel with our top 7 anti-static fuel funnels for safe overland refueling. Read our expert guide to choose the best gear for you.

Antistatic Bonding Wires

Safeguard your operations with Anti-Static Bonding Wires from Materials Handling. Explore our range of reliable solutions designed to mitigate electrostatic discharge risks in your workplace. Ensure safety

Cable tray outlet funnel buy online

Tee funnel cable tray Outlet funnels for cable trays are formed parts for safe, organized, and material-friendly cable routing. They create a defined transition from the cable tray downward, to the side, or

Precision Rifle Modular Anti-Static Powder Funnel Set

Precision fit and premium function, at a great price. This funnel comes with inserts for the most common calibers used in “precision rifle” reloading. We use additive

Safety Funnels Overview | Lab Chemical Disposal

Funnels with ball valve close automatically after filling if the lid is left open (double security). The electrically conductive models are made of antistatic plastic (e.g.

Antistatic Weighing Funnels

Ensure complete sample transfer with these disposable antistatic polypropylene weighing funnels that are designed to fit in volumetric flasks. One side of the funnel is flattened so you can set the funnel

ESD Non Sparking Scoops, Shovels, Spatulas, Scrapers and Funnel

Our ESD Anti Static working tools are suited for usage in hazardous and/or electrostatic sensitive areas. LPD offers Anti Static scoops, shovels, spatulas, scrapers and funnels which may be used for a

SIZZIX ANTI STATIC FUNNEL TRAY

PicClick Insights - Sizzix ANTI STATIC FUNNEL TRAY - Use with Embossing Powder/Glitter/Sequin 664353 PicClick Exklusiv Popularität - 8 Beobachter, 0.0 neue Beobachter pro Tag, 1.385 days for

Weighing Funnels | Fisher Scientific

Weighing funnels are designed to fit in flasks, tubes or any narrow neck apparatus, ensuring complete sample transfer. Impact- and shatter-resistant anti-static polypropylene weighing funnels are disposable.

Sizzix Making Essentials Anti Static Funnel Tray By Tim

Sizzix - Making Essentials Anti Static Funnel Tray By Tim Holtz Minimize mess and waste. The plastic tray is armed with an anti-static coating, ensuring glitters, powders, and sequins effortlessly move

TWD Scientific LLC Small Antistatic Polypropylene

Small disposable antistatic polypropylene weighing funnel. Fits volumetric flask volumes (ml) of 5, 10, 15, and 20. Funnels have a maximum capacity of 2mL.

MK Machining Precision Rifle Anti-Static Funnel Set

THROW LEVER ACCESSORIES AUDERE PRODUCTS RCBS CHARGEMASTER What products does MK Machining offer? MK Machining offers high-quality throw levers, reloading trays, grips, scope

Anti Static Tray, Custom ESD Plastic Trays Manufacturer

Anti-static Tray: The Ultimate Guide Antistatic trays are among those things that should top your must-have list for ESD control and management. The trays provide critical protection to sensitive electronic

Anti Static Funnel Tray Sizzix Hobbiez

Made from anti-static material, elements will not stick to the tray for ease of use. The funnel allows you to re-pot any unused glitters, beads and embossing powders for efficient creating.

Introducing The Press Club's Anti-Static Funnel

Beyond the anti-static properties, the physical design of this funnel reflects real-world hash making experience. The neck is extra-long specifically to

Weighing funnel size S, anti-static PP | Sigma-Aldrich

Our team of experienced scientists is here for you. Sit flat on balance - No rolling, no spilling! Still not finding the right product? It looks like we've run into a problem, but you can still download Certificates

KPH Anti Static ESD PP PCB Tray (I Type)

KPH Anti Static ESD PP PCB Tray (I Type) - 25 Slots FOR PCB STACKING : Amazon : Industrial & Scientific Fasteners, Food service equipment and

Sizzix Making Essential

The plastic tray is armed with an anti-static coating, ensuring glitters, powders and sequins effortlessly move about the tray and can be easily deposited through the funnel back into the material's
