

Are there fiber optic cable factories in Australia and where are they located

AI Overview

Yes, Australia has several fiber optic cable manufacturing facilities, primarily located in New South Wales and Victoria. Key Manufacturers and Locations:

- 1. Prysmian Group – Dee Why, New South Wales** Prysmian operates an optical cable manufacturing plant in Dee Why, NSW, which has been expanded in partnership with Telstra to produce fiber optic cables for Australia's intercity fiber network. This facility focuses on advanced, locally-made cables designed to withstand Australia's environmental conditions and supports large-scale national infrastructure projects.
- 2. Fibre Optic Systems (FOS) – Knoxfield, Victoria** FOS is headquartered in Knoxfield, Melbourne, and specializes in the manufacture and distribution of fiber optic and copper products. The company emphasizes rapid production, high-quality manufacturing, and tailored solutions for telecommunications and enterprise networks.
- 3. The Fibre Optic Company of Australia (FOCA)** FOCA, established in 2009, manufactures and distributes fiber optic cables and accessories for the telecommunications industry. While the exact factory location is not specified, FOCA operates nationally and focuses on high-quality products and client-specific solutions.
- 4. CABAC – Seven Hills, New South Wales** CABAC produces a wide range of electrical and fiber optic connectivity products, including cable jointing systems and structured wiring solutions. Their highly automated facility in Seven Hills, NSW, supports both standard and custom-designed fiber optic products.
- 5. Veyra Fibre** Veyra Fibre is an Australian-owned provider of fiber optic cabling and connectivity solutions. While primarily a solutions and distribution company, it partners with global OEMs to supply high-performance fiber optic cables across Australia and Oceania.

Summary Australia's fiber optic cable manufacturing is concentrated in New South Wales (Dee Why, Sev...

Article Content

OTDR Optical Time Domain Reflectometer Fiber Optic Tester Cable

No matter the basic cables, patch cords, adapters and tools used in the construction process of fiber optic communication products, or the products after installation and maintenance. Let customers truly

Top Fiber Optic Cable Manufacturers in Australia

Discover all relevant Fiber Optic Cable Manufacturers in Australia, including M2 Group and Fibre Broadband Pty Ltd

How To: Install Fiber Optic Cable for Success - trueCABLE

Learn the best practices for installing fiber optic cable, from patch cords to bulk distribution fiber.

Guide to Fiber Optic Drop Cable

There are different types of drop cables tailored to specific installation needs, such as aerial or underground deployment. Key advantages of fiber optic drop cables include their high data

Fibre Optic Cable Manufacturers Australia

Leading fibre optic cable manufacturers in Australia are at the forefront of this technological advancement, providing state-of-the-art solutions to support the country's digital growth.

The FOA Reference For Fiber Optics

Installation of feeder and distribution cables generally follows standard OSP practice, but the drop cables are unique to FTTH. The cables are often different

UnderSea 2025 The Year The Subsea Cable Map Quietly Changed

2025 was a turning-point year for subsea cable infrastructure. Not because more systems were being installed, but because the logic of routing, ownership, and strategy shifted. Cloud scale,

Joining Fiber Cable - What Are the Options?

Factory-terminated cable does deliver clear advantages in lower labor costs, higher performance and faster implementations. However, taking advantage of factory

The FOA Reference For Fiber Optics

Fiber To The Home Network Design There is really no way to generalize on the design process for fiber to the home (FTTH) networks - or any fiber optic network

Telstra and Prysmian Group partner to expand fibre manufacturing

Prysmian Group, a key partner in the project, has invested into Australian-based fibre optic cable manufacturing technology that will enhance and increase the production of locally-made state-of-the

Fibre Optic Supplier Australia | Anderson Corporation

Trusted fibre optic supplier in Australia since 1988. Anderson Corporation provides cables, SFPs, test equipment & connectivity solutions.

Fiber Optic Backbone Office Design: 2026 Guide

Discover essential strategies for fiber optic backbone office design in 2026. Maximize your network's efficiency and scalability today!
