

Bolivian optical cable laying

Overview

With a budget of USD 50 million, ENTEL has devised a three-phase strategy to bring fibre optics to 32 municipal capitals, 12 towns and various rural areas. The two operators join forces to launch a novel low-latency terrestrial route linking Peru and Brazil via Bolivia as part of the South American Bi-Oceanic Corridor initiative, designed to support the region's fast growing digital entertainment market Sparkle Wins Three Prizes at the Carrier. TKSat-1, launched in 2013 as a \$300 million geostationary satellite with China's help, enabled rural internet, backhaul for mobile towers, and community telecenters with latency around 600 ms. Plans for Túpac Katari 2 with substantially higher throughput were discussed, but a second satellite had. Sparkle, one of the world's leading global operators, and Entel Bolivia, Bolivia's largest telecommunications company, have signed a Memorandum of Understanding (MoU) to jointly commercialize the terrestrial route connecting the Pacific and Atlantic coasts through Bolivia. The agreement, signed. Exports In 2022, Bolivia exported \$7.01k in Optical fibres and cables, making it the 137th largest exporter of Optical fibres and cables in the world.
