

Bundled pigtail fiber optic cable

Overview

Fiber Optic Bundle Pigtails comprises a set of 12 optical pigtails. For ease of identification, these pigtails will come in 12 different colours and are used to be optically spliced with the optical fibers from the optical cable to enable network connection. They are the bridge between fiber optic cables in the field and the equipment or patch panels that manage them. By combining factory-installed connectors with spliced bare fiber, pigtails ensure that network installers can create. FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards. Features: Applicable connector: FC, SC, ST, LC.
