

Cable Tray Production and Processing in Uzbekistan

AI Overview

Uzbekistan has an active cable tray manufacturing sector, with companies producing metal trays for industrial, commercial, and infrastructure projects using high-quality steel and modern coating methods. Key Manufacturers Mirankul Group produces metal cable trays in Uzbekistan, offering 50 mm and 80 mm trays suitable for power distribution, low-current systems, and engineering communications. Their production emphasizes precise geometry, perforation, and coating quality, ensuring durability in high humidity and temperature fluctuations. They supply across Tashkent and other regions, providing direct sales without intermediaries. AYSU HVAC Systems manufactures a full range of cable support systems, including perforated, ladder, C, and U-type trays. They use galvanized steel with Sendzimir or hot-dip galvanizing for corrosion protection and offer powder coating in any RAL color. Their trays are designed for high load capacity and ease of installation, with a wide selection of fittings for complex layouts. Other notable companies include TBM Stroy, EnergoRemont, Integrity Solution Ltd., and Yes Energy, which are listed in Uzbekistan business directories for metal cable tray production and supply. Production Methods and Materials Steel Types and Coatings: Manufacturers use galvanized steel for indoor and outdoor applications, with hot-dip galvanizing for aggressive environments. Powder coating is available for aesthetic and protective purposes. Tray Designs: Common designs include perforated trays for general cable management, ladder trays for heavy power lines, and C/U-shaped trays for flexible routing. Tray thickness ranges from 0.7 mm to 2.0 mm depending on load requirements. Quality Control: Production involves precise geometry control, perforation accuracy, and coating inspection to ensure long-term durability and compliance with construction standards...
