

Cable tray steel columns

Overview

A cable rack is a steel support system designed to carry electrical cables across: It consists of horizontal trays supported by vertical steel frames or columns. Wire Mesh Cable TrayAre you looking for high-quality Cable Trays for improved cable management and organisation?

Look no further than our extensive range, featuring top brands such as our very own RS PRO, Cablofil International, Legrand, and StarTech. Strong and durable – Made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. Fast installation – Reduce installation costs with quick and efficient. Constructed from high-quality welded steel wire, Cablofil® Wire Mesh Cable Tray is the result of decades of research and over 94,000 miles of installed tray across the globe. From heavy power cable pathways on oil drilling platforms to data center cabling, explore the cable tray that's strong yet. Cable racks (also called cable trays or cable support systems) are essential structural elements used in industrial plants, substations, commercial buildings, and infrastructure projects. Browse or download the cable tray catalog for more information on our full line of cable tray and ladder systems.
