

Cable tray straight edge plate price

AI Overview

The price of a cable tray straight edge plate typically ranges from \$10 to \$50 per piece, depending on material, size, and supplier. Pricing Factors The cost of a straight edge plate for cable trays depends on several factors:

- Material:** Steel, stainless steel, aluminum, or fiberglass (FRP/GRP) affect durability and price. Stainless steel and fiberglass are generally more expensive than standard galvanized steel.
- Size and Dimensions:** Larger plates or those designed for wider trays cost more. Common widths range from 100mm to 300mm, with lengths from 1m to 3m.
- Load Rating:** Light-duty plates are cheaper, while heavy-duty plates designed to support more weight are higher in price.
- Supplier and Brand:** Prices vary between suppliers like PLATT Electric, McMaster-Carr, Bahra Electric, and CEF, with premium brands or specialized products costing more.

Typical Price Range

- Light-duty steel plates: \$10–\$20 per piece
- Medium-duty aluminum or galvanized plates: \$20–\$35 per piece
- Heavy-duty stainless steel or specialized plates: \$35–\$50+ per piece

Additional Considerations

- Bulk Orders:** Purchasing in larger quantities often reduces the per-unit cost.
- Accessories:** Edge plates may require bolts, brackets, or connectors, which can add \$2–\$5 per piece.
- Shipping and Delivery:** Costs vary by supplier and location, especially for longer or heavier plates.

For exact pricing, it is recommended to contact suppliers directly or check their online catalogs, as prices fluctuate based on material availability, market demand, and regional factors. Suppliers like PLATT Electric, McMaster-Carr, and CEF provide detailed product listings and may offer quotes for bulk orders.
