

Canadian Mesh Cable Tray Wholesale Price List

AI Overview

The wholesale price of wire mesh cable trays in Canada typically ranges from CAD \$10 to \$25 per meter, depending on material, finish, and order quantity. Price Range and Material Factors The cost of wire mesh cable trays varies based on material and coating: Galvanized steel: Most common and cost-effective, balancing durability and price. Stainless steel: Higher-priced, used in corrosive or hygienic environments. Aluminum: Lightweight and rust-resistant, generally more expensive than steel. Polymer-coated or plastic trays: Budget-friendly but suitable only for light loads. For bulk or wholesale orders, suppliers often offer discounted rates, which can reduce the per-meter cost below standard retail pricing. Brand and Supplier Considerations Popular Canadian suppliers include Chalfant, Legrand Cablofil, and TradeKey listings, offering a range of wire mesh trays with different finishes, modular sections, and accessories. Chalfant trays, for example, are noted for heavy-duty capacity and long-term durability, which may increase upfront costs but reduce maintenance and replacement expenses over time. Budget alternatives like Snake Tray 501 provide lower initial costs and faster installation but may have lower load capacity. Additional Cost Factors Length and modularity: Standard 10 ft sections are common; custom lengths may affect pricing. Finish: Powder-coated or hot-dip galvanized trays cost more than pre-galvanized options. Shipping and installation: Heavier trays incur higher transport costs; labor costs vary by region. Project scale: Large orders often qualify for wholesale discounts, reducing the per-unit cost significantly. Summary For Canadian wholesale purchases, expect CAD \$10–\$25 per meter for wire mesh cable trays, with the final price influenced by material, finish, brand, and order volume. Bulk orders and careful selection of material and supplier...
