

Custom-made high and low voltage complete sets of equipment for Fiji

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. High-quality assembly structure: The cabinet adopts advanced assembly structure to improve product quality and matching accuracy. Strong adaptability: The main wiring scheme can reach more than 198 types to meet the needs of different users. Complete "five-protection" functions: Each. At Power Plus Engineering, we specialise in delivering comprehensive civil electrical services that support the infrastructure powering our communities. and businesses to industrial plants and government infrastructure. Welcome to Power Plus. Yasana Renewable Energy in Fiji emerged from the imperative to transition Fiji and the Pacific region towards efficient and cost-effective renewable solar energy. By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean energy for generations to come. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand.
