

Distribution box model hdx

Overview

The HDX Fiber Distribution Frame is a main cross-connect or interconnect patching frame for all fiber channels in the data center. One frame consolidates patching into an incredibly small footprint, with capacity for more than 3,168 LC fibers, or 15,552 fibers using 24-fiber MTP®. HDX 07B fiber access termination box is able to hold up to 16 subscribers. The COFITELE Group presents Leviton's OPT-X™ and OPT-X™ HDX rack-mountable UHDX fiber optic boxes, which simplify the installation of pre-terminated solutions. The HDX is designed for high density DC distribution for multiple applications with front access bullet terminal circuit breakers and GMT fuses. Built for 19" / 23" rack mount (2RU high), the HDX includes both AM series plug-in bullet terminal breakers and 8 GMT fuse sockets for auxiliary loads, or. A high-density fiber optic frame that prepares the data center for growth, minimizes patching footprint, reduces installation time, and saves you money. Chat with supplier now for more details.
