

Eastern European Grid Cable Tray Company

Overview

EAE cable trays are produced on automatic production lines through the 'ROLL FORMING' method. The standard tray length is 3m. It provides flexible and modular solutions with illumination and socket (Mains and UPS) circuits for small power distribution in offices and plants. These are cable management systems composed of trays, mounting support systems, direction changing parts, connection parts and fittings with the purpose of carrying and fixing cables safely in the electrical installations. Humanity faces many challenges: Limited resources, climate change, and an increasing world population. DKC is a European leader, and offers a comprehensive range of cable tray systems and energy protection, transport and distribution solutions for civil and industrial infrastructures. I hereby consent to the processing of my personal data in accordance with EU Regulation no. Which cable cleat should you choose?

Øglænd System AS © Copyright 2024. | Design and. Clear cable routing – Organized and safe cable management, easy maintenance, helps prevent failures. Fast installation – Reduce installation costs with quick and efficient.
