

European fire-resistant cable tray companies

AI Overview

Leading European manufacturers of fire-resistant cable trays include Meka Pro, Basor Electric, DKC Europe, Trayco, and Ekabel24, all offering tested and standards-compliant solutions. Key Companies and Offerings

Meka Pro specializes in fire-resistant cable support systems tested according to EN 1363-1 standards. Their products are designed to maintain electrical supply during fires, prevent collapse, and avoid toxic flue gases. Meka Pro offers over 1,200 fire-tested standard products, ensuring safe and cost-effective installations for industrial and civil infrastructures. Basor Electric conducts rigorous fire resistance testing to ensure cable trays maintain functionality for critical systems such as emergency lighting, fire alarms, and smoke extractors. Their products comply with European and local fire safety standards, including German, Czech, and Slovak regulations, and are designed to maintain circuit integrity under extreme fire conditions. DKC Europe provides a comprehensive range of cable tray systems and energy distribution solutions for civil and industrial infrastructures. While not exclusively focused on fire-resistant trays, DKC offers products that meet European safety and performance standards. Trayco offers high-quality cable trays, ladders, mesh trays, and mounting systems suitable for industrial and commercial applications. Their product range includes solutions compatible with fire-resistant installations. Ekabel24 supplies cable trays and ladders made from hot-dip galvanized steel, stainless steel, and halogen-free plastics. Their systems comply with DIN EN 61537 and international standards, providing fire-resistant and safe cable routing options for various environments.

Considerations for Selection

Compliance with Standards: Ensure the cable trays are tested according to EN 1363-1 or equivalent European standards for fire resistance.

Material Choice: Steel, stainless st...

Article Content

FIRE-RESISTANT

All fastenings of fire-resistant cable management system installations must be carried out with corresponding fire-rated fastening accessories. The most commonly used fire-resistant cable
