

Fiber optic distribution boxes and splitters

Overview

In modern FTTH (Fiber to the Home) and optical communication networks, three types of fiber distribution products are widely used: Splitter Distribution Box, ODF (Optical Distribution Frame), and Fiber Terminal Box. Deploying compact FS PLC Splitters to simplify your networks, perfectly fits your PON, EPON, FTTX, etc. It integrates splicing, signal splitting, storage and cable distribution function within a single enclosure for outdoor installation. Check each product page for other buying options. High quality components ensure a secure and stable operation. Detailed insights into the installation process, along with maintenance best practices, equip network administrators with the knowledge needed.
