

Haiti the country with the fiber optic cable

Overview

Key Insight: By 2026, Haiti's fiber optic network has expanded to cover 35% of the country, significantly improving internet reliability and speed. Internet penetration has increased to 42%, driven by mobile adoption and infrastructure investments, yet rural areas still lag behind. The average. Two years after Haiti was struck by a devastating 7.0 magnitude earthquake, the country is set to receive a major boost with the delivery of a US\$16m 200km undersea cable which will link the country to the world via internet connectivity, thanks to Digicel. The Haitian telecommunications authority, CONATEL, decided in October 2010 to allow the introduction of 3G services by the mobile telephone service providers. This support comes in the form of public. The company NATCOM, a consortium, created in April 2010 between the Group Viettel Telecom (60%), [a subsidiary of the Vietnamese army] and the Bank of the Republic of Haiti (40%), has revolutionized the Telecommunications Sector in Haiti since the launch of its services in Haiti, September 7, 2011. This custom manufacturing fiber optic cable series is designed to offer solutions for.
