

How to press down the glass door of a network server rack

Overview

Insert the key into handle and turn key 180 degrees, counter-clockwise. 90 degrees towards center of door to allow door to open. Snap top of handle into lock cutout, be sure to engage fully snap retaining. Step 7 - Assemble the front lock and attach the Door Assemble the front door lock as shown in the picture below: To install the Tempered Glass Door (#4), locate the side with two pins. But it's kinda dumb that you can't get the front door off rack 6 without removing the doors from 1-5 first. Removing a door Hold the door in place, and lift both hinge pins until they lock in the open position so that the door is disengaged. Install. Open the door of the server rack by pressing the keyhole, this can be done with the key, but also very easily with your own finger. Page 4 Front Door Lock Spring Pin Flat Washer Hex Washer Lock Cylinder. This section covers basic operation and methods required to install, remove, reverse or change swing, combination and HFID handles on doors.
