

Huawei 100Mbps Access Switch

AI Overview

Huawei S2700 and S3700 series switches provide reliable 100Mbps Fast Ethernet access for enterprise and campus networks. Overview Huawei offers several 100Mbps access switches suitable for enterprise, education, and government networks. These switches are designed to provide high reliability, simplified management, and energy efficiency, making them ideal for building next-generation IT networks.

S2700 Series The Huawei S2700 series is a next-generation, energy-saving, intelligent 100M Ethernet switch. Key features include:

- Port Configuration:** Supports 100 Mbit/s access ports for terminals and 1000 Mbit/s uplinks for connecting to aggregation or core switches.
- Management:** Equipped with Huawei Easy Operation (EO) for simplified installation, configuration, monitoring, and troubleshooting. It also supports a Web-based NMS with a graphical interface for visual configuration and alarm management.
- Security and QoS:** Offers comprehensive security policies, ACLs, and quality of service (QoS) features to manage traffic efficiently.
- Design:** Fan-free models reduce mechanical faults and protect against dust and condensation. Supports hot-swappable device replacement without reconfiguration.
- Deployment:** Suitable as a desktop access device or for small to medium-sized enterprise campus networks.

S3700 Series The Huawei S3700-52P-EI-AC is a more advanced 100Mbps access switch with additional uplink and PoE capabilities:

- Port Configuration:** 48 x 10/100BASE-TX ports, 2 x 1000BASE-X, and 2 x 100/1000BASE-X uplinks.
- Performance:** Designed for resilient Layer 3 switching in large data centers or as core switches in small to medium-sized enterprise campuses.
- Accessories:** Supports rack mount kits, SFP modules, and power supply cables for flexible deployment.
- PoE Support:** Provides Power over Ethernet to connected devices, simplifying installation of IP phones, cameras, and wireless access points.

Use Cases Enterprise Campus Networks: Connects desktops, IP phones, and wireless access points with reliable 1...

CloudEngine S6750-H Series 100GE Switches

- 36 x 100GE access ports • Switching capacity of 8 Tbit/s • VXLAN-based network virtualization, multi-service converged bearing • MACsec supported on ports, supporting networking with E2E MACsec

Huawei S5732-H48XUM2CC (24*100M/1G/2.5G/5G/10G Ethernet

This flexibility allows the switch to adapt to various network speeds and requirements. The S5732 H48XUM2CC also includes a single expansion slot, which enables additional functionality or capacity

CloudEngine S5732-H-V2 Series Multi-GE Switches Brochure

With these merits, the CloudEngine S5732-H-V2 can function as core switches for small-sized campus networks and branches of medium- and large-sized campus networks, and also work as access

Cara Setting Huawei HG8145V5 Jadi WiFi AP & Switch Gigabit

Artikel ini mencontohkan bagaimana cara setting Modem Router ONT Huawei HG8145V5 menjadi WiFi Access Point dan Switch Gigabit.

S3328TP-SI-AC Huawei Brandneuer Switch 24-Ports 100BASE-TX

Die S3328TP-SI-AC Huawei ist eine brandneuer 24-Port 100BASE-TX Layer 2 Ethernet-Switch mit 4 zusätzlichen Dual-Purpose-Uplink-Ports (GE RJ45/SFP Combo), konzipiert für

Netzwerk-Switches von Huawei

Ethernet-Switches von Huawei liefern Ihrem Unternehmensnetzwerk eine hohe Leistung, hohe Verfügbarkeit für resiliente Services und ein vereinfachtes

Buy Huawei S5732-H24UM2CC switch online at

S5732-H can function as core switches for small-sized campus networks and branches of medium- and large sized campus networks, and also work as

Huawei Ethernet Switch & Network Switches Solutions

Thunder link offers various models of Huawei Ethernet switches and network switches, including the S5720, S6720, S6730, CE6800 and CE12800, designed for data centers and campus networks.

Huawei Ethernet Switches

Router-switch offers huawei CloudEngine, Campus and smb ethernet switches, provide high-availability, high-performance networking for large-scale data centers, ISPs, and enterprise IT networks.

S1700 Series Switches

Huawei S1700 series enterprise switches provide energy-saving Fast Ethernet access for small businesses and branch locations. Discover how.

Huawei S5732-H24UM2CC CloudEngine S5732-H 24x Multi-GE

With this feature set, CloudEngine S5732-H is designed for connecting to Wireless Local Area Network (WLAN) APs in the Wi-Fi 6 era.

CloudEngine S5755-H Series | Huawei Enterprise

Huawei CloudEngine S5755-H series switches are high-quality gigabit access switches that can be widely used in many industries. Learn more.

Example for Configuring the Rate and Duplex Mode of an Ethernet ...

This page provides a guide to configure the rate and duplex mode of an Ethernet interface for optimal network performance.

Huawei AirEngine 9703-S-T Wireless Access Controller Datasheet

The AirEngine 9703-S-T is a high-specification wireless access controller (AC) for midsize and large enterprise campuses, enterprise branches, and school campuses.

Data Center Switches

Data Center Switches CloudEngine Data Center Switches — Ethernet switches widely used in diverse applications and in different network sizes, in both data centers and high-end campus networks —

S5732-H48XUM2CC (02353MLH -001) Datasheet

optical/electrical synergy working mode. It can work as aggregation switch for medium- and large-sized campus networks, access switch in small- and micro-sized data

S6320 Series Next-Generation Enhanced 10GE Switches

S6320-EI Series Next-Generation Enhanced 10 GE Switches The S6320-EI series switches are next-generation 10G box switches. The S6320 can function as an access switch in an Internet data center

CloudEngine S5755-H Series High-Quality Multi-GE

Featuring high-density multi-rate ports with auto-negotiation across 100M/1/2.5/5/10G speeds, they seamlessly accommodate the bandwidth

Huawei AR1200 Series Enterprise Routers Datasheet

Product Overview Huawei AR1200 series enterprise routers are next-generation enterprise-class routers based on the Huawei proprietary Versatile Routing Platform (VRP). They build on Huawei's record of

HUAWEI WiFi AX2

HUAWEI WiFi AX2 comes equipped with 5 GHz and 2.4 GHz bands that operate simultaneously, and automatically switches devices between 5 GHz and 2.4 GHz bands to ensure that they enjoy an

CloudEngine S5736-S Series Switches | Huawei Enterprise

CloudEngine S5736-S Series Multi-GE Switches CloudEngine S5736-S Series Switches are standard multi-GE access switches for the Wi-Fi 6 era, featuring 24 downlink ports, four 10 GE SFP+ uplink

S5755-H24UTM4X4Y2C S5755-H price and specs

With the launch of the S5755 H series switches, the ports support 100M/1/2.5/5/10G auto sensing, meeting the bandwidth requirements of high speed wireless APs in

Huawei S2700 Series Switches Product Brochure

The S2700 series enterprise switches (S2700 for short), are next-generation energy-saving intelligent 100M Ethernet switches developed by Huawei. The S2700 utilizes cutting-edge switching

Switch Overview

Switch Overview Huawei S series fixed switches ensure high-quality transmission of services and provide reliable access and aggregation on campus networks. They have an integrated hardware

Huawei S2320-EI Series Switches Product Brochure

The S2320-EI is a next-generation energy-saving 100M Ethernet switch that provides flexible 100M access ports and GE uplink ports. Building on next-generation, high-performance hardware and the
