

Indoor Outdoor Dual-Purpose Fiber Optic Cable

Overview

These versatile cables are designed with a dual-purpose construction, featuring flame-retardant jackets (such as LSZH or Plenum) for indoor safety compliance, while maintaining the moisture and UV resistance required for outdoor survival. These are cables that are designed to meet both the rigorous environment of the outdoors but also can be routed indoors, where flame rating requirements also apply. This type of indoor outdoor cable eliminates the need for a “transition splice” to an indoor-rated cable when routing an outdoor cable. Indoor/Outdoor Duplex Fiber Patch Cables, Singlemode & Multimode, OM1 OM2 OM3 OM4 OS2, 50/125 9/125 62.5/125, Yellow/Orange/Aqua Jacketed Fiber Optic Plenum Jumper Cords. LC SC Fiber Adapter F/F | Metal Hybrid Duplex. LC female / SC female Duplex Fiber Optic Adapter, Singlemode / Multimode, Metal. Fiber Optic Indoor/Outdoor Cables are engineered to bridge the gap between internal network environments and external infrastructures. Designed for data centers, broadband networks, FTTH and FTTX infrastructures, enterprise LANs, and telecommunication systems, these cables deliver reliable. The flame-retardant Wrapping Tube Cable™ (WTC™) with Spider Web Ribbon™ (SWR™) is a high-density optical cable designed for riser-rated indoor and indoor/outdoor use.
