

## Industrial Switch with 2 Fiber Ports Multimode

### Overview

This managed switch comes with Ethernet TCP/IP protocol. It comes with 8 copper cable transmission ports and 2 ports for multimode fiber optic. It provides simple and complex connectivity for multiple Ethernet device, network management, enhanced cyber security and more. For your most sensitive temperature and noise challenged environments, VERSITRON manufactures a wide range of Industrial Fiber Optic Switches that are available in the following formats: You can count on these devices to produce a variety of options including screw terminal for power, and a choice. Industrial fiber optic Ethernet switches are designed to deliver stable, long-distance, and interference-resistant network connectivity in harsh industrial environments where copper Ethernet is limited by distance or electromagnetic noise. For serial RS-232, RS-422/485 and Profibus applications there.
