

Latest Middle East Optical Cable Plans

AI Overview

The Middle East is rapidly expanding its optical cable infrastructure, driven by 5G deployment, FTTH expansion, smart city projects, and regional connectivity initiatives. Market Growth and Drivers The Middle East optical fiber and active optical cable markets are experiencing strong growth. The optical fiber components market is projected to reach USD 28.1 billion by 2025 and is expected to grow to approximately USD 58.65 billion by 2032, with a CAGR of 11.08%, fueled by 5G networks, FTTH deployments, and digital transformation initiatives in both public and private sectors. The active optical cable market is expected to reach USD 571.6 million by 2030, growing at a CAGR of 13% from 2025 to 2030. Key National Initiatives Saudi Arabia: Vision 2030 aims to expand fiber optics network coverage to 3.5 million households by 2025, supporting nationwide broadband and 5G connectivity. UAE: Vision 2021 has achieved 95% fiber optics coverage, making it one of the highest globally, and continues to support smart city and IoT infrastructure. GCC and Turkey: Investments in FTTH, smart cities, and data centers are driving demand for high-capacity optical cables. Technological Trends High-Density Cables: Ribbon fiber and micro cables are being deployed in urban areas to maximize capacity in limited spaces. Bend-Insensitive Fibers: These fibers allow easier installation in dense urban environments without compromising performance. Wavelength Division Multiplexing (WDM) and Optical Amplifiers: Used in national backbones and submarine cables to increase bandwidth and signal reach. QSFP Form Factor: The most lucrative segment in active optical cables, supporting high-speed data centers and cloud services. Regional Connectivity and Submarine Cables The Middle East is investing in submarine fiber cables and terrestrial links connecting Europe, Asia, and Africa, positioning the region as a global digital hub. These projects enhance cross-border connectivity, support cloud services, and enable high-speed i...

Article Content

Middle East

Learn about the increasing demand for optical fibers, bundles, and cables in the Middle East market and the projected growth trends till 2035.

Market Trends Shaping the Fiber Optics Industry in the Middle East

In 2023, Corning Incorporated announced the launch of a new high-capacity fiber optic cable designed for the MENA market, exemplifying the technological progress in the industry.

WebProcure

WebProcure offers best-in-class functionality, reaching end-to-end from requester to procurement buyer to merchant, and all the way back! Designed specifically for the public sector.

Middle East's Optical Fiber Cables Market to Witness Slow Growth

Learn about the growing demand for optical fiber cables in the Middle East and how the market is projected to expand over the next decade, reaching a volume of 175K tons and a value of

Middle East Fiber Optic Cable Market (2025)

Market Forecast by Countries (Saudi Arabia, UAE, Kuwait, Qatar, Bahrain, Oman, Turkey and Rest of Middle East), By Cable Type (Single-Mode, Multi-Mode), By Material (Glass, Plastic), By Application

Mena Fiberoptic Cable Market Size \$16.35B by 2033 | 7.2% CAGR ...

This report provides a comprehensive analysis of the Mena Fiberoptic Cable market from 2023 to 2033, exploring market size, segmentation, regional insights, and future trends impacting the

Middle East's Optical Fiber Cables Market Report 2026

The Middle East optical fiber cables market is a critical infrastructure pillar underpinning the region's ambitious digital transformation and economic diversification agendas. Characterized by

Middle East's Optical Fiber Cables Market to Witness Gradual Growth ...

Learn about the growing demand for optical fiber cables in the Middle East and how the market is expected to continue its upward trend over the next decade. Market performance is forecasted to

Home Page Omdia

Omdia, part of Informa TechTarget, Inc., is a global analyst and advisory leader that helps you connect the dots across the technology ecosystem. Our deep knowledge of tech markets combined with our

Market Trends: Fiber Optic Demand in the Middle East

Investments in submarine Fiber cables and terrestrial links connecting Europe, Asia, and Africa are positioning the Middle East as a global digital hub.

Middle East Fibre Optic Cables Market Analysis 2026

The Middle East and Africa Fibre Optic Cables market size is USD 0.35 billion in 2023 and will expand at a compound annual growth rate (CAGR) of 3% from 2023 to 2030.

Middle East and Africa Fiber Optics Cable Market Share 2026

The Middle East and Africa Fiber Optics Cable market is witnessing dynamic changes driven by shifting consumer preferences, technological advancements, and supportive government

Middle East Active Optical Cable Market Report: Size, Share, Growth ...

The future of the Middle East active optical cable market appears promising, driven by technological advancements and increasing digitalization. As governments prioritize digital infrastructure,

The Middle East Fiber Optic Revolution: A Region on the Move

Over the last decade, the Middle East has undergone a profound transformation in digital infrastructure, led by the rapid expansion of fiber optic networks. Countries like Saudi Arabia, the

Exclusive: Riyadh wants to replace Israel with Syria for

Saudi Arabia wants to replace Israel with Syria as the transit country for a fibre-optic cable designed to connect the kingdom to Greece through the

Middle East Optical Fibers Market Analysis 2026

Furthermore, the Middle East and Africa region is experiencing a surge in demand for fiber optic equipment owing to factors such as the region's telecommunication plans, rising internet usage, data

Middle East and Africa Optical Data Cable Market size 2026 ...

The Middle East and Africa Optical Data Cable market is witnessing dynamic changes driven by shifting consumer preferences, technological advancements, and supportive government

Iran eyes a new source of power deep beneath the Strait of Hormuz

Emboldened by its blockade of the Strait of Hormuz, Iran is turning to one of the hidden arteries in the global economy: subsea cables beneath that carry vast internet and financial traffic ...

Middle East Optical Fiber Cables Market (2025-2031) | Strategy ...

Middle East Optical Fiber Cables Industry Life Cycle Historical Data and Forecast of Middle East Optical Fiber Cables Market Revenues & Volume By Type for the Period 2021 - 2031

WorldLink: \$700m subsea cable connecting Europe and Middle East

A \$700 million subsea and terrestrial data cable is planned to connect Europe and the Middle East. Named "WorldLink," the cable plans to deliver 900Tbps (terabits per second) of capacity

Global IT Products & Network Solutions Provider | Black Box

Excellence in Digital Infrastructure Innovate, Integrate, Elevate Black Box is a global leader in digital infrastructure solutions, delivering network and system integration, managed services, and

Middle East's Optical Fiber Cables Market Report 2026

Optical Fiber Cables Market Size in The Middle EastOptical Fiber Cables Production in The Middle EastOptical Fiber Cables ExportsOptical Fiber Cables ImportsThe Middle Eastern optical fiber cables market surged to \$X in 2023, jumping by X% against the previous year. The total consumption indicated a resilient increase from 2012 to 2023: its value increased at an average annual rate of X% over the last eleven-year period. The trend pattern, however, indicated some noticeable fluctuations being recorded ...See more on indexbox.ioIndexBox

Middle East - Optical Fibers, Bundles and Cables - Market Analysis ...

The analysis is designed to support strategic planning, market entry, portfolio prioritization, and risk management in the optical fiber, bundle and cable landscape in Middle East.

Google plans fibre-optic cable linking Israel and Saudi Arabia

Google is planning to deploy a fibre-optic network that will run through Saudi Arabia and Israel to open a new global internet traffic corridor, according to a US newspaper.

Big project: fiber optic cables between the Middle East and Europe

Qatar and Saudi Arabia are investing in new cable networks that should relieve undersea cables in the Red Sea and will further digitally connect three continents - Europe, Africa and Asia.

Middle East

The Middle East optical fiber market is projected to grow at a CAGR of +1.7% in volume and +2.4% in value through 2035, driven by rising demand. This analysis covers consumption, production, trade,

UAE landing station confirmed for fibre optic cable ...

In 2021, Google announced plans for a \$400 million cable between Europe and Asia known as Blue-Raman running through Israel, Jordan and Saudi Arabia.
