

Level 1 Power Distribution Box XL21

Overview

The Fulleto XL-21 series is an indoor, floor-standing power distribution cabinet engineered for excellence. It serves as the central hub for receiving and distributing electrical energy in low-voltage. XL-21 power distribution cabinet Cabinet front door installed ammeter, voltmeter and the signal lamp, button, selector switch and other components. The main distribution box adopts self-design of new components, compact structure, beautiful appearance, easy maintenance, a variety of wiring options. XL-21 low-voltage power distribution switchgear is suitable for power distribution in power plants and industrial and mining enterprises in three-phase four-wire systems with AC voltage of 500 volts and below. It can be equipped with entry and exit holes at the top as required. Busbar Type (M Type): This. 1.
