

Price of Energy-Saving Cable Trays in Singapore

AI Overview

Energy-saving cable trays in Singapore typically range from SGD 20 to SGD 150 per meter, depending on material, type, and load capacity.

Price Overview

The cost of cable trays varies significantly based on material, design, and duty rating:

- Steel Cable Trays:** Standard or perforated steel trays are commonly used for medium to heavy-duty applications. Prices generally range from SGD 30 to SGD 120 per meter for light to heavy-duty options.
- Aluminum Cable Trays:** Lightweight and corrosion-resistant, aluminum trays are ideal for energy-efficient installations. Prices typically range from SGD 50 to SGD 150 per meter.
- Wire Mesh Trays:** Suitable for indoor and outdoor use, wire mesh trays are versatile and cost-effective, usually priced between SGD 20 and SGD 80 per meter.
- FRP/GRP Trays:** Fibre-reinforced plastic trays offer corrosion resistance and low maintenance, with prices around SGD 60 to SGD 120 per meter.
- PVC/Plastic Trays:** For light-duty applications, PVC trays are inexpensive, ranging from SGD 20 to SGD 50 per meter.

Factors Affecting Price

- Duty Rating:** Light, medium, heavy, or super heavy-duty trays influence cost due to material thickness and load capacity.
- Material Quality:** Stainless steel (SS304, SS316) and epoxy-coated trays are more expensive than mild steel or galvanized options.
- Tray Type:** Ladder, perforated, solid-bottom, or trough designs affect both price and energy efficiency, as open designs improve airflow and reduce cooling costs in industrial settings.
- Accessories:** Covers, mounting brackets, and cable markers add to the overall cost.
- Supplier and Delivery:** Prices may vary between suppliers like RS Components, Wanco Electric, Ferrotech, and Lazada Singapore, with some offering free next-day delivery.

Recommendations

For industrial or data center applications, consider aluminum or stainless steel trays for durability and energy efficiency. For light-duty office or hom...
