

Price of Fiber Optic Patch Cords and Pigtails Telecom Grade

AI Overview

Telecom-grade fiber optic patch cords and pigtails typically range from \$2 to \$50 per unit, depending on fiber type, connector, length, and jacket material.

Pricing Overview

The cost of fiber optic patch cords and pigtails varies widely based on several factors:

- Fiber Type:** Single-mode (OS1/OS2) cables generally cost more than multimode (OM1, OM2, OM3, OM4, OM5) due to higher precision requirements and lower attenuation.
- Connector Type:** LC, SC, FC, and MPO connectors influence price. MPO/MTP connectors for 12F/24F cores require precise alignment and polishing, increasing cost.
- Cable Length:** Prices increase linearly with length, but longer cables may have higher per-meter costs for armored or specialty jackets.
- Jacket Material:** LSZH (Low Smoke Zero Halogen) and armored cables are more expensive than standard PVC due to safety and durability features.
- Customization:** Custom lengths, core counts (8/12/24), and factory testing add to the price.

Typical Price Ranges

- Standard multimode patch cords (OM3/OM4, LC/SC, 1-5 meters): \$2-\$10 per unit.
- Single-mode patch cords (OS2, LC/SC, 1-5 meters): \$5-\$20 per unit.
- Armored or LSZH cables: \$10-\$50 per unit depending on length and core count.
- Pre-terminated pigtails for fusion splicing: \$3-\$15 per unit, depending on fiber type and connector.

Additional Considerations

- High-speed applications:** For 10G/40G/100G/400G networks, OM4/OM5 multimode or OS2 single-mode cables with ultra-low insertion loss are recommended, which may increase cost.
- Bulk Orders:** Purchasing in bulk or OEM quantities can reduce per-unit cost significantly.
- Quality Assurance:** Factory-tested cables ensure performance and reliability, which is critical for telecom-grade deployments.

In summary, telecom-grade fiber optic patch cords and pigtails are priced based on fiber type, connector, length, jacket material, and customization, w...
