

Price of Molded Corrugated Cable Trays in Tajikistan

AI Overview

The cost of corrugated cable trays in Tajikistan typically ranges from \$2 to \$25 per meter, depending on material, type, and supplier. Price Overview Corrugated cable trays are available in materials such as galvanized steel, stainless steel, aluminum, and fiberglass, each affecting the price. Galvanized steel is the most common and cost-effective option, while stainless steel and aluminum are more expensive due to corrosion resistance and lightweight properties. Plastic or fiberglass trays are cheaper but less suitable for heavy loads. The average price per meter globally ranges from \$2 to \$25, with bulk orders or project-based purchases often reducing the per-meter cost. In Tajikistan, suppliers like Brilltech Engineers, Micro Sheet Crafts, and Jeetmull Jaichandlall offer cable trays at market-competitive prices, and they provide customized solutions, installation support, and delivery.

Factors Affecting Cost

Material and Coating: Hot-dip galvanized (HDG) trays cost more than pre-galvanized or powder-coated trays but last longer outdoors.

Tray Type: Ladder trays are more expensive than perforated or wire mesh trays due to higher load capacity.

Size and Dimensions: Wider or thicker trays designed for heavy-duty applications increase the price.

Installation and Shipping: Labor costs, local wages, and transportation can add to the total project cost.

Customization: Tailored lengths, bends, or special fittings may increase the price.

Practical Advice

Contact local suppliers in Tajikistan to get exact quotes based on your project requirements. Consider bulk orders to reduce per-meter costs. Evaluate material and durability to balance upfront cost with long-term maintenance savings. By considering these factors, you can estimate that a corrugated cable tray in Tajikistan will likely cost between \$5 and \$20 per meter for standard galvanized steel, with hi...
