

Price of Singapore-style fiberglass cable trays

AI Overview

Fiberglass cable trays in Singapore typically range from SGD 50 to SGD 300 per meter, depending on type, size, and specifications.

Price Overview

The cost of fiberglass (FRP) cable trays varies based on tray type, material, and load capacity:

- Ladder Type FRP Cable Trays:** Designed for heavy-duty applications, supporting high cable loads with excellent ventilation. These are generally more expensive, ranging from SGD 150 to SGD 300 per meter depending on width and rung spacing (Ferrotech).
- Perforated or Slot Trays:** Suitable for lighter loads and better airflow, typically SGD 80 to SGD 200 per meter.
- Trunking or Enclosed Fiberglass Trays:** Often used for industrial or corrosive environments, prices can start around SGD 50 per meter for standard sizes and increase with customization or fire-retardant features.

Factors Affecting Cost

- Material Type:** Fire-retardant resins (Isophthalic Polyester or Vinyl Ester) increase durability and safety but also raise the price.
- Dimensions:** Wider or deeper trays for heavy cable loads cost more.
- Customization:** Special lengths, bends, or perforation patterns can add to the cost.
- Supplier and Quantity:** Bulk orders from suppliers like Ferrotech or Alibaba may reduce per-meter cost, while small retail purchases on Lazada or Shopee may be higher.
- Installation Requirements:** Some trays may require additional supports or brackets, affecting overall project cost.

Supplier Options in Singapore

- Ferrotech Far East Pte Ltd:** Offers industrial-grade FRP cable trays in ladder and perforated types, suitable for chemical plants, marine, and high-voltage applications.
- Online Marketplaces:** Lazada and Shopee provide smaller-scale or standard fiberglass trays for commercial or residential projects, often with delivery options.
- Alibaba:** For bulk or customized orders, international suppliers offer a wide range of FRP cable trays with...
