

Price of Yin-Yang Fixed Optical Attenuator

AI Overview

Yin-Yang Fixed Optical Attenuators typically range from \$2 to \$15 per unit, depending on connector type, attenuation value, and purchase quantity.

Pricing Overview

Single Units: Individual Yin-Yang fixed attenuators, such as SC, LC, FC, or MU types, generally cost \$2–\$5 per piece for standard attenuation values like 5dB or 10dB when purchased in small quantities.

Multi-Packs: Bulk packs, such as 10-pack MU or LC/UPC attenuators, are priced around \$10–\$15 per pack, which reduces the per-unit cost and is suitable for multiple installations.

Attenuation Range: Attenuators with higher attenuation values (up to 30dB) or specialized connectors may be priced slightly higher due to manufacturing precision and performance requirements.

Factors Affecting Price

Connector Type: SC, LC, FC, ST, and MU connectors have slightly different costs due to design and compatibility.

Attenuation Value: Higher dB ratings or adjustable attenuators may increase the price.

Quantity: Bulk purchases significantly reduce the per-unit cost.

Supplier and Region: Prices vary depending on the supplier, shipping, and import fees if purchased internationally.

Purchasing Options

Online Retailers: Websites like Naku Optics, EasyPictureFactory, and 1688Wholesale offer both single units and bulk packs with specifications and shipping options.

Direct Manufacturers: Suppliers on Alibaba provide custom orders, allowing negotiation for larger quantities or specific connector types, with delivery times typically 1–2 weeks for mass production.

In summary, for standard Yin-Yang Fixed Optical Attenuators, expect \$2–\$5 per unit for single pieces and \$10–\$15 for 10-pack sets, with prices influenced by connector type, attenuation value, and order quantity.
