

# Price of photovoltaic cable trays in Guinea

## AI Overview

Cable tray prices in Guinea for photovoltaic projects typically range from \$2 to \$25 per meter, depending on material, type, and environmental suitability.

**Overview of Cable Trays for Solar Projects**

Cable trays are essential for supporting and protecting electrical cables in photovoltaic (PV) installations, including DC cables from solar panels, AC power lines, and control or communication wiring. In solar projects, trays must withstand harsh outdoor conditions such as UV exposure, heat, dust, moisture, and wind, while providing proper ventilation to prevent overheating and maintain system reliability.

**Common Types and Materials**

- Ladder trays:** Strong, durable, ideal for heavy-duty cable runs; allow excellent airflow.
- Perforated trays:** Balance protection and ventilation; suitable for moderate environmental exposure.
- Solid-bottom trays:** Fully protect cables from dust, water, and debris; used in sensitive or harsh environments.

**Materials commonly used include:**

- Galvanized steel:** Cost-effective, durable, suitable for outdoor use.
- Stainless steel:** Corrosion-resistant, ideal for coastal or highly humid areas, but more expensive.
- Aluminum:** Lightweight and rust-proof, moderately priced.
- PVC or plastic:** Budget-friendly, suitable for light loads and indoor use.

**Price Estimates**

Per meter pricing: \$2 to \$25 per meter depending on material, type, and finish.

Hot-dip galvanized ladder trays (common for PV projects) are typically sold in 2.4-meter standard lengths, with fittings priced per unit. Bulk orders or project-specific procurement can reduce per-meter costs, while specialized materials like stainless steel increase the price.

**Factors Affecting Cost**

- Material and coating:** Stainless steel > aluminum > galvanized steel > plastic.
- Tray type:** Ladder trays are more expensive than perforated or wire mesh trays.
- Environmental exposure:** Outdoor solar installations require corrosion-resistant coatings, increasing...
