

SC Fiber Optic Card Splitter

Overview

Fiberhome Plug-in Card Splitter 1:8 SC is a high-performance optical splitter designed to divide a single optical signal into eight outputs with exceptional reliability and low insertion loss. The Fiber Optic Distribution Box is a multifunctional termination point to connect feeder cables with drop cables in FTTX communication network systems. With its total enclosed structure. □1x2 Efficient Optical Splitting for Versatile Applications□Utilizing advanced PLC technology, this splitter delivers uniform 1:16 splitting ratio across 1310-1550nm wavelengths. This plug-in card format ensures easy integration into fiber optic distribution frames, making it an ideal. 1x8 insert type PLC Splitter. The interface type is SC/APC, fast and practical. Applicable to home wiring, engineering projects, corporate companies, fiber optic LAN. T PON standards such as GPON, XGS-PON and new 25 and 50G standards. Housing, Split Ratio, and Connector Options can be Customized See more□ 1/0 Invalid Parameter Invalid Parameter Get a Quote Your Item Qty *Please help to fill it out and submit, our service will reply to you as soon as possible.
