

SC to LC fiber optic coupler

Overview

The SC to LC Simplex Metal Hybrid Fiber Adapter with Flange (Female to Female) is designed to provide direct interconnection between SC and LC connectors in fiber optic networks. Explore quality LC to SC and SC to LC adapters. Industrial-grade connectors with ceramic alignment sleeves for superior performance and durability. Fiber optic's advantages over copper cabling are well known immunity to EMI and RFI, low attenuation over long distances, high bandwidth capacity, smaller size and lower weight. Its metal body offers enhanced durability, while the flange mounting design allows secure and stable installation on. While the small size of fibre optic connectors does not mean they play a minor role, the type of connector you use affects the overall efficiency of light transmission across the fibre network. This complete guide gives an insightful explanation of the specifications.
