

Saudi Arabian optical cable steel wire manufacturing plant

AI Overview

Key players in Saudi Arabia include Riyadh Cables, Bahra Electric, and United Wire Factories (ASLAK), producing optical cables and steel wire for industrial and utility applications. Riyadh Cables, established in 1984, is one of the largest cable manufacturers in Saudi Arabia, with a 1.8 million-square-meter facility in Riyadh. The company produces a wide range of products, including low, medium, and high voltage power cables, overhead line conductors, telephone and optical fiber cables, and pilot/control cables. Riyadh Cables has received BASEC certification and serves major clients such as Saudi Electric Company, Saudi Telecom Company, Saudi ARAMCO, and SABIC. Their operations extend through 18 local and 6 international branches, supporting both domestic and regional markets. Bahra Electric has emerged as a pioneer in optical fiber cable production in Saudi Arabia, particularly in OPGW (Optical Ground Wire) manufacturing. Through a partnership with Prysmian, Bahra Electric became the first Saudi company to produce OPGW, integrating optical fibers with steel wire for high-voltage transmission lines. The company also focuses on sustainability, achieving Environmental Product Declaration (EPD) certification for its LV and FR cables, and has expanded its production lines to support MV cable accessories and oil-type transformers. United Wire Factories Company (ASLAK) specializes in steel wire products, which are essential for both industrial and construction applications, including integration into optical cables like OPGW. Operating since 1990, ASLAK has eight factories across Saudi Arabia and is publicly listed on TADAWUL (symbol 1301). The company provides a range of services, including fencing projects and supply of steel wire materials, and emphasizes quality standards, technological advancement, and competitive market...
