

Sc bare wire adapter

Overview

Optcore's SC bare fiber adapter is used as the tester tool to temporarily connect the bare fiber with fiber optic equipment without having to attach a permanent connector. It provides a simple and effective way to use un-terminated fibers with standard SC receptacles. WCFO's SC connector is fully. The F-AS and F-AM Bare Fiber Adapters enable quick and easy temporary connections of single-mode and multimode fibers. Optical time-domain reflectometers (OTDRs), and a variety of other instruments, enabling in-situ functional testing without having. Our Buffered Fiber Optic Adapters are designed to hold 900 buffer optical fiber, and are available in ST, FC, SC and SMA 905 configurations. In addition to this particular fiber optic adapter style, we offer a wide range of other fiber optic adapters for those applications that require.
