

Senegal High and Low Voltage Switchgear Complete Sets of Equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. Delivered from Dubai directly to Port of Dakar. We serve specific requirements for Power Utilities projects in Africa with. From expanding manufacturing zones in Dakar and Thies to growing logistics activities in Saint-Louis, Kaolack, and Ziguinchor, industries across the country need electrical systems that are safe, durable, and capable of withstanding fluctuating loads. This is why Siemens switchgear has gained. In 2025, CHINT played a key role in the construction of the Boucle de Ferlo 225kV High-Voltage Transmission Grid Project in Senegal, contributing critical power equipment to strengthen grid interconnection and improve electricity supply reliability in the country's northern regions. Commissioned by. There are 21 Electrical equipment suppliers in Senegal as of May 5, 2025; which is an 10.
