

Singapore Optical Line Terminal 100G

Overview

GP5810-08 OLT is a highly integrated, large-capacity XG (S)-PON OLT for operators, ISPs, enterprises, and campus applications. The product follows the ITU-T G. 988 technical standard, and can be compatible with three modes of G/XG/XGS at the same time. Explore our range of high-quality GPON, EPON, and XG (S)PON OLT products. Find the perfect Optical Line Terminal solutions for your network needs. Our typical optical line terminal adopts 19 inch size rack design, it is with 3U height and 16 slots, every 2 of them is offered to one OLT module. At the heart of a point-to-multi-point or passive optical network (PON) is the optical line terminal (OLT). Modern OLTs offer communication service providers (CSP) the ability to launch multigigabit services to tens of thousands of subscribers from a single location or just ten.
