

Spanish Non-Standard Electrical Distribution Box Wholesale Manufacturer

AI Overview

Spain hosts a variety of manufacturers and distributors specializing in electrical distribution boxes, including non-standard and customizable solutions. Key Manufacturers and Distributors

- IDE Electric** – Offers enclosures for electrical distribution assembled and wired according to REBT standards, made from high-durability halogen-free plastics. Their products cover 10 to 125 Amperes and 24 to 500 Volts, with IP44, IP54, and IP67 protection, suitable for customized applications.
- Grupo Electro Stocks** – A prominent Spanish distributor of electrical materials, providing wholesale electrical distribution products to various industries. They focus on reliable supply and robust logistics, making them a strong partner for bulk orders.
- Ormazabal** – Specializes in high-tech electrical solutions, including MV transformer substations and fully insulated switchgears. Their offerings support renewable energy integration and modernized distribution networks, with potential for non-standard configurations.
- UniElectrica** – Focuses on renewable energy solutions and electricity distribution, offering high-quality alternatives to traditional utilities. They provide services for small and medium enterprises, including customized electrical distribution setups.
- Volza Database** – Lists 594 junction box suppliers in Spain, including major exporters like INTERCARS S A and SE CEE SCHNEIDER ELECTRIC KFT. This platform allows filtering for economical and reliable suppliers, including those capable of producing non-standard or customized boxes.

Considerations for Non-Standard Boxes

- Customization:** Many Spanish manufacturers can produce enclosures with specific IP ratings, amperage, voltage, and material requirements.
- Compliance:** Ensure products meet REBT or other relevant Spanish electrical standards.
- Bulk Supply:** Companies like Grupo Electro Stocks and Volza-listed suppliers provide who...
