

# Wholesale price of ribbon fiber optic patch cords

## AI Overview

Ribbon fiber optic patch cords are available wholesale from approximately \$5 to \$50 per unit, depending on fiber type, length, and connector configuration.

**Pricing Overview** Wholesale prices for ribbon fiber optic patch cords vary based on several factors:

- Fiber Type:** Single-mode cords generally cost more than multi-mode due to higher performance and lower attenuation.
- Connector Type:** Common connectors include LC, SC, MPO, and MTP. MPO/MTP ribbon connectors are typically more expensive due to their multi-fiber design.
- Length:** Standard lengths range from 1 meter to 30 meters or more. Longer cords increase the price proportionally.
- Quantity:** Bulk orders often reduce the per-unit cost. Suppliers on platforms like Alibaba and Global Sources offer tiered pricing for large orders.

**Typical wholesale ranges observed online:**

- Short multi-mode patch cords (1-5 meters): \$5-\$15 per unit
- Single-mode patch cords (1-10 meters): \$10-\$30 per unit
- MPO/MTP ribbon patch cords (multi-fiber, 12-24 fibers): \$25-\$50 per unit depending on length and customization

**Supplier Options**

- Alibaba:** Offers a wide range of OEM and factory-direct ribbon fiber optic patch cords with customizable lengths and connectors.
- Global Sources:** Provides over 1,000 fiber-optic patch cord products from manufacturers with fast shipping and competitive wholesale pricing.
- Riteoptic:** Specializes in customizable patch cords for FTTH, LAN, and data center applications, offering wholesale pricing for bulk orders.
- FiberOptic Supply:** Supplies bulk fiber optic materials, including patch cords, cables, and consumables for enterprise and telecom use.

**Considerations for Wholesale Purchases**

- Quality Standards:** Ensure cords meet industry standards (TIA/EIA, ISO/IEC) for low insertion loss and high return loss.
- Customization:** Many suppliers allow custom lengths, fiber counts, and connector types, which can affect pricing.
